

xReader™ Drugs of Abuse Test System

Hire quickly and confidently using instrument-read expanded panel testing.

When Knowing now matters™, get digitally-screened negative results in 5 minutes—allowing you to hire employees today.

Consistent Rapid Results

With the integrated xReader™ system and xCup™ test device, donor drug testing is automated—enabling you to successfully hire and maintain a drug-free, productive workforce.

Flexible Testing

The xReader system enables you to electronically screen for 6 to 10 commonly abused prescription and illicit drugs. It provides you the immediacy of rapid, point-of-care drug screening with the consistency of an instrument read test.

The EOHN™ occupational health network is a collection of 3500+ sites that provide convenient locations for your candidates to be screened professionally with eScreen technology.

Connecting safety, health, and wellbeing.

The perfect workplace drug test solution

- **Dependable:** the xCup™ urine drug test screens up to 10 illicit and prescription drugs (plus specimen validity test)
- **Automated:** an electronic chain of custody form sheds the reliance on burdensome paper forms
- **Fast:** test results available in 5 minutes and communicated electronically
- **Powerful:** the application gives you access to real-time event status and result reporting
- **Flexible:** xCup was created as the ideal pre-employment solution for workforces of all sizes
- **Expedited:** make faster hiring decisions with same day results, hiring your top candidates before your competition
